Description of Work

10-23-2022
 Erick G.
 Arrived for annual fall furnace safety inspection.
 Furnace is 4 YO Daikin single stage high efficient.
 I checked all Furnace components: Furnace air filter-passes. Blower Wheel- passes. Blower capacitor- passes. Flame safety device- passes I bend rod today for better reading. Ignitor- passes. Tubular Heat Exchanger- passes. Perform combustion analysis- passes. Humidifier- passes.
 Secondary heat exchanger has 2 tubes with rust present on them I took pictures and added to job.
 I noticed collector box is missing 5/16 nut on bottom right if collector box which has been creating a leak that has rusted to blower. There is currently standing water in blower motor compartment.
 I also noticed no drain tubing on HRV air exchanger.
 Customers home was build 4 years ago and he plans to reach out to contractor that installed it to address issues at this time.
 No gas leaks.
 ** \$0 collected **
 Thank you for choosing Bonfe!

Task #	Description	Quantity	Your Price	Your Total
AH Deferral Revenue	AH Deferral Revenue	1.00	\$-66.00	\$-66.00
