Please submit a Service Ticket, that way it will get seen by Olivia, myself and others to ensure the ticket is made for us to track against our vendor (LDM) and aid in timely completion.

Brennan

Brennan,

I appreciate the conversation this morning to resolve the fan wiring.

I'll purchase fans for the bedrooms in the near future so that RTH can arrange an electrician to come back and install the fans (3) and remote-wall switches (3). The remote-wall switches are on-site already, left by the electrician today. I will contact RTH once I have ceiling fans.

How would you prefer I contact RTH to have the electrician re-dispatched: through you directly, or should I submit a service ticket / warranty request through the webpage?

Thank you again for your help,

Jason
